PITCHFEST AND ZERO
SESSION FOR
ENTREPRENEUR
EXCELLENCE PROGRAM
(E2P) COHORT 2.0

FROM THE DESK OF THE HOC

I am pleased to share the key activities conducted during the month.

On 18th November, the Centre successfully organised an online Pitchfest under the Entrepreneurship Excellence Program (E2P) Cohort 2.0 in collaboration with Moonpreneur. The event provided participants with a platform to present their innovative ideas and receive constructive feedback from experts, helping them strengthen their entrepreneurial mindset and presentation skills.

Further, on 26th November, we conducted the Zero Session of the E2P Cohort 2.0 through online mode. The session witnessed an enthusiastic participation of 55+ students, reflecting the growing interest and engagement within our innovation ecosystem. The session introduced the structure, objectives, and learning roadmap of the program, setting a strong foundation for the upcoming cohort activities.

These initiatives mark our continued commitment towards fostering innovation, skill development, and entrepreneurial growth among students and young innovators.

15 NOVEMBER
2025

PITCH FEST (E2P)

Honorable Guests

Prof. R.K. Sinha
Head of CII Centre, IIT(ISM)

Mr. Alok Jaini
CEO of Moonpreneur

Mr. Day Veerlapati
CEO & President of S2Tech

Panelist

Mr. Rahul Raj
CEO, CII Centre IIT (ISM)

Mr. Prashant Vajpayee
Senior Product Manager at Salesforce

Mr. Prateek Sachdev
Expertise in Innovation & Startups

A PitchFest was organised under the Entrepreneurship Excellence Program (E2P) Cohort 2.0, offering participants a platform to present their innovative business ideas. Students from various academic backgrounds pitched their concepts with clarity and creativity, receiving valuable feedback from the reviewing panel. Conducted by the CIL Innovation & Incubation Centre, IIT (ISM) Dhanbad, in collaboration with Moonpreneur India Pvt. Ltd., the event highlighted the cohort's enthusiasm and strengthened their entrepreneurial skills.

Empowering Innovation: CIL Centre Builds Indigenous Draw Wire Sensor

The CIL Centre has achieved a noteworthy milestone with the successful in-house development of a Draw Wire Sensor, reinforcing its commitment to innovation, applied research, and skill-based learning. The draw wire sensor, widely used for accurate linear position and displacement measurement in automation, robotics, testing equipment, and industrial machinery, has been designed and fabricated by the technical team at the centre using indigenous expertise and resources. This achievement reflects the Centre's growing capability in developing advanced instruments while reducing dependence on commercially imported systems.

The development of this sensor brings significant benefits to the Centre by strengthening its research and prototyping infrastructure, enabling cost-effective experimentation, and enhancing readiness for real-time industrial applications. It also opens avenues for sponsored projects, industry collaboration, and startup incubation related to mechatronics and sensor-based technologies.

For students, this initiative provides hands-on exposure to sensor design, calibration, data acquisition, and application-based testing. It bridges the gap between theory and practice, enhances technical competence, and boosts employability by equipping students with industry-relevant skills. Overall, this development stands as a strong example of experiential learning and technological self-reliance at the CIL Centre.

Entrepreneur Excellence Program Cohort 2.0

Zero Session Successfully Conducted

The Zero Session of the Entrepreneurship Excellence Program (E2P) Cohort 2.0 was successfully conducted online on 26th November 2025. The session witnessed enthusiastic participation from more than 55 students, representing diverse academic backgrounds and showcasing a strong interest in innovation, entrepreneurship, and experiential learning. The Zero Session introduced participants to the program structure, key objectives, and the exciting opportunities they will explore in the weeks ahead.

Mr. Deepak Kumar, Technical Assistant, represented the CIL Innovation & Incubation Centre and actively participated in the proceedings of the Zero Session. His presence added value to the discussions and ensured smooth coordination on behalf of the Centre.

The successful commencement of the Zero Session sets a promising tone for the upcoming modules and activities of E2P Cohort 2.0. The organizing teams from both CIL Innovation & Incubation Centre and Moonpreneur India Pvt. Ltd. extend their best wishes to all participants for a fruitful learning experience ahead.
